

Pre-university Program for International Students

To study at the universities of Russia international students must complete the pre-university training. After the successful completion of the pre-university training program of Tambov State Technical University international students receive a Certificate according to the requirements of the Ministry of Education and Science of Russia.

There are three sections in preparatory program: Technical-Engineer, Technological and Economic. The context of program depends on the section you choose.

Our unique methodology incorporates practical conversation, grammar, reading, writing, and pronunciation in all levels.

Our experienced teachers create a Russian-speaking-only class right from the first day.

Schedule of educational process
